

ACHA Guidelines

Position Statement on Tobacco on College and University Campuses

The American College Health Association (ACHA) acknowledges and supports the findings of the Surgeon General that tobacco use in any form, active and/or passive, is a significant health hazard. ACHA further recognizes that environmental tobacco smoke has been classified as a Class-A carcinogen and that there is no safe level of exposure to environmental tobacco smoke (ETS), a recognized toxic air contaminant. In light of these health risks, ACHA has adopted a NO TOBACCO USE policy and encourages colleges and universities to be diligent in their efforts to achieve a 100% indoor and outdoor campus-wide tobacco-free environment. *This position statement reflects the viewpoint of ACHA and serves only as a guide** to assist colleges and universities with evaluating progress toward becoming or maintaining tobacco-free living and learning environments that support the achievement of personal and academic goals.

ACHA joins with other professional health associations in promoting tobacco-free environments. According to the ACHA-National College Health Assessment (ACHA-NCHA) conducted in fall 2008, 83% of college students described themselves as non-smokers (never smoked or have not smoked cigarettes in the last 30 days); 90% reported being non-smokers for hookah/water pipes (never used or have not used in the last 30 days); and 97% described themselves as non-users of smokeless tobacco (never used or have not used in the last 30 days). ACHA supports the health goals of the U.S. Public Health Service to reduce the proportion of adults who smoke to below 12% by the year 2010 and to positively influence America's college students to help them remain or become

tobacco-free. Additionally, ACHA actively supports the Healthy Campus 2010 goals to reduce cigarette smoking by college students to below 10.5% and smokeless tobacco use to below 1.0% by the year 2010.

Efforts to promote tobacco-free environments have led to substantial reductions in the number of people who smoke, the amount of tobacco products consumed, and the number of people exposed to environmental tobacco hazards. ACHA acknowledges that achieving a tobacco-free environment requires strong leadership and support from all members of the college/university community. Because the improvements to health can be so significant, ACHA recommends the following positions be taken to address policy, prevention, and cessation as it pertains to tobacco issues:

1. Develop a strongly worded tobacco policy that reflects the best practices in tobacco prevention, cessation, and control. These include the following recommendations:
 - a. Tobacco is defined as all tobacco-derived or containing products, including, but not limited to, cigarettes (clove, bidis, kreteks), cigars and cigarillos, hookah-smoked products, and oral tobacco (spit and spitless, smokeless, chew, snuff).
 - b. Tobacco use is prohibited on all college and university grounds, college/university owned or leased properties, and in campus-owned, leased, or rented vehicles.
 - c. All tobacco industry promotions, advertising, marketing, and distribution are prohibited on campus properties.
 - d. The sale of tobacco products and tobacco-related merchandise (including logo containing items) is prohibited on all

* Compliance with the elements of this position statement is not and cannot be mandated by ACHA; nor is compliance a condition for institutional membership in ACHA.

- university property and at university-sponsored events, regardless of the operating vendor.
- e. The distribution or sampling of tobacco and associated products is prohibited on all university owned or leased property and at university-sponsored events, regardless of the venue.
 - f. Tobacco industry and related company sponsorship of athletic events and athletes is prohibited.
 - g. The college/university does not permit tobacco companies on campus to conduct student recruitment or employment activities.
 - h. The college/university does not accept any direct or indirect funding from tobacco companies.
 - i. The campus provides and/or promotes cessation services/resources for all members of the college/university community.
2. Inform all members of the campus community by widely distributing the campus tobacco policy on an annual basis. The tobacco policy is clearly posted in employee and student handbooks, on the college/university website, and in other relevant publications. Key components of the policy are also shared with parents, alumni/ae, and visitors. The general policy should be included in prospective student materials in both printed and electronic formats.
 3. Offer and promote prevention and education initiatives that actively support non-use and address the risks of all forms of tobacco use.
 4. Offer and promote programs and services that include practical, evidence-based approaches to end tobacco use, including screenings through health and counseling services, free/reduced-cost tobacco-cessation counseling, free/reduced-cost nicotine replacement therapy, and medication options on campus.
 5. Advocate for the inclusion of tobacco use cessation products, medications, and services in student health insurance plans.
 6. Provide a comprehensive marketing and signage effort to ensure that all college/university

visitors, vendors, guests, and others arriving on property owned or leased by the institution are aware of the tobacco-free policy.

7. Plan, maintain, and support effective and timely implementation, administration, and consistent enforcement of all college/university tobacco-related policies, rules, regulations, and practices. Provide a well-publicized reporting system for violations.
8. Collaborate with local, state, and national public health entities and tobacco prevention and control public, private, and national non-profit tobacco-related organizations in support of maintaining a healthy tobacco-free environment.
9. Develop and maintain a tobacco task force on campus to identify and address needs and concerns related to tobacco policy, compliance, enforcement, and cessation. Key individuals and departments to invite/include:
 - a. Undergraduate and graduate students (particularly from student-elected/representative organizations)
 - b. Health and counseling center professionals
 - c. Faculty (including faculty senate or other faculty governing bodies)
 - d. Residence life/housing
 - e. Judicial affairs
 - f. Campus safety/police
 - g. Human resources
 - h. Neighborhood liaisons
 - i. Facilities
 - j. Other important stakeholders specific to your campus
